firstnumber
operator

add
sub
mul
div

#secondnumber

calculate

#calculate

read from field

```
const firstNumber = doc.gse("#firstNumber").value;
```

writing to field

```
doc.gse("#firstNumber").value = result;
```

read from drop-down

same as from a field!
.value

checking checkbox

not .value but .checked ← boolean

scrolling

not sure, but this might work

```
doc.gse(container).scrollTo(0, 1000000)
```

↑
eg #results

↑
any large number
seems to work
